**Company description :**

Nokia invests in technologies important in a world where billions of devices are connected. We are focused on three businesses: network infrastructure software, hardware and services, which we offer through Nokia Networks; location intelligence, which we provide through HERE; and advanced technology development and licensing, which we pursue through Nokia Technologies. Each of these businesses is a leader in its respective field.

Our Nokia Networks business is the world's specialist in mobile broadband. From the first ever call on GSM, to the first call on LTE, we operate at the forefront of each generation of mobile technology. Our global experts invent the new capabilities our customers need in their networks. We provide the world's most efficient mobile networks, the intelligence to maximize the value of those networks, and the services to make it all work seamlessly.

Nokia European Software Engineering Center hires dedicated, enthusiastic and passionate people, who create the largest ITC R in Poland. Our facilities in Wrocław are located in three sites and accommodate one of the biggest test telecommunications labs in Middle and Eastern Europe. Apply and experience the adventure of a lifetime!!!

**Job description :**

Position Description:

Do you know that...

your thesis, as well as any kind of analyses or reports you create at university is also an excellent example of technical documentation?

If you...

- find it easy to write these kinds of documents
  - feel you have the ability to comprehensibly describe complex technical concepts
  - like passing on knowledge to others
  - have received positive feedback on your projects,
- then...

... keep on developing your skills by becoming a professional Technical Writer!

By interning with us you will gain knowledge of most advanced telecommunications solutions, learn and master your Technical Writing skills, learn how to professionally describe products, and experience working in an international environment.

**Required profile :**

Position Requirements:

- \* Technical university (not only IT or telecommunications) or university student,
- \* Fluent in spoken and written English,
- \* Eager to gain a wide knowledge of mobile telecommunications systems,
- \* Willing to develop competence within the Technical Writing area,

- \* Interested in high-tech innovations,
- \* A problem solver,
- \* Challenge seeking,
- \* Creative and initiative-orientated person.

We will give you the opportunity to constantly develop your IT and Telecommunications knowledge and skills within a flexible and friendly multicultural environment.
