Company description :

Nokia invests in technologies important in a world where billions of devices are connected. We are focused on three businesses: network infrastructure software, hardware and services, which we offer through Nokia Networks; location intelligence, which we provide through HERE; and advanced technology development and licensing, which we pursue through Nokia Technologies. Each of these businesses is a leader in its respective field.

Our Nokia Networks business is the world's specialist in mobile broadband. From the first ever call on GSM, to the first call on LTE, we operate at the forefront of each generation of mobile technology. Our global experts invent the new capabilities our customers need in their networks. We provide the world's most efficient mobile networks, the intelligence to maximize the value of those networks, and the services to make it all work seamlessly.

Nokia European Software Engineering Center hires dedicated, enthusiastic and passionate people, who create the largest ITC R in Poland. Our facilities in Wrocław are located in three sites and accommodate one of the biggest test telecommunications labs in Middle and Eastern Europe. Apply and experience the adventure of a lifetime!!!

Job description :

We are looking for ambitious students willing to join our team to work on SW Tester position to support our project teams in Entity Tests. Working as WS you'll become a part of global organization developing newest mobile broadband technology.

If you join us you will have a chance to become a real LTE tester and developer working for commercial product. You will act as a team member in one of our short term projects supporting tools and new features which are part of our ongoing projects in embedded software.

Required profile :

Position Requirements:

Requirements:

- * Student of Telecommunication, Computer Science or Software Technology or equivalent
- * knowledge of IP networks
- * knowledge of script/programming languages (Perl, Python, Bash)
- * knowledge of Linux OS (command line)
- * knowledge of telecommunication area
- * very good interpersonal and teamwork skills
- * communicative English
- * don't have experience in something listed? We don't mind if you're a quick learner.
- * don't see a technology you love? Tell us why we should know about it.

Bonus points:

- * knowledge of software testing
- * knowledge of test automation

- * Initiative, creative and analytical
- * knowledge of SW development methodologies (Agile/Scrum, waterfall)
- * Robot framework knowledge
- * Knowledge of 4G access technology (LTE)
