Company description :

Nokia Solutions and Networks is the world's specialist in mobile broadband. From the first ever call on GSM, to the first call on LTE, we operate at the forefront of each generation of mobile technology. Our global experts invent the new capabilities our customers need in their networks. We provide the world's most efficient mobile networks, the intelligence to maximize the value of those networks, and the services to make it all work seamlessly.

Job description :

We are expanding our Customer Documentation team and looking for one motivated Technical Writer to join our team in Wrocław.

Technical communication is the discipline that has been playing an increasingly significant role in many technical branches nowadays. For the IT industry, professional technical documentation is a crucial, integral element of every product that allows our customers to build and manage their ICT networks.

As a Technical Writer you will be responsible for designing, implementing, and coordinating the technical documentation of our products, developed by our world-class R You will also have the chance to build the future of telecommunications by revolutionizing the current product documentation. In addition, you will be involved in working on cutting-edge technologies.

Required profile :

Position Requirements:

- * University graduate (but not only IT or telecommunications)
- * experience in creating technical documentation, preferably in IT sector
- * well-familiarized with creating multimedia presentations or training materials
- * fluent in spoken and especially written English
- * interest in both: technical writing and mobile telecommunications systems
- * disciplined and focused on details
- * problem-solving mind
- * initiative-oriented person
